PETITION FILED IN COURT FOR REVOCATION OF LICENSE

Citizens Allege That Haley Was Careless In His Business.

HEARING SEPTEMBER 7

Petition Presented By R. W. Knox Attorney Saturday Morning.

R. W. Knox, attorney for the Anti-Saloon league and representing the Jerome Plummer Temperance fund on Saturday filed in the office of the clerk of courts a petition asking for the revocation of the retail liquor license of Edward Haley, at the Central Hotel in the borough of Roscoe. The petition came as a surprise as it was not known that the hotel had any opposition. The petition was presented to Judge McIlvaine, who granted a rule on Mr. Haley to show cause why his license should not be revoked, and fixed Monday, September 7, as the date for the hearing.

Mr. Haley only recently applied to the court for leave to have the license held by him transferred to William Coulson, of Donora, and the hearing on that transfer had been set for next Monday. On account of the petition filed Saturday the hearing will now be postponed until the other matter is disposed of.

The following is a copy of the petition asking for the revocation of the license:

To the Honorable, the Judges of said Court:

The petitioners of the undersigned respectfully represents:

That they are citizens and inhabitants of the borough of Roscoe, Washington County, Pennsylvania.

That on November term, 1907, the license was granted to the Central hotel in Roscoe, Washington County, Pennsylvania, running from

Edward Haley has not been careful in the manner of his business, and has been careless in giving it his attention, as your petitioners are informed, believe and expect to prove, and set forth the following facts which have been obtained and on which the 6 charges herein made are based:

1. The said Edward Haley has furnished intoxicating liquor to men of known intemperate habits as follows: Frank Hazelbaker (May 16, 1908—date when he was killed—and other dates.) Tom Roberts, Lem Osterider, George Hughes, Mat Flint, Jack Young and George Gillies.

2. The said Edward Haley has furnished intoxicating liquors to divers others of known intemperate habits, and in other ways conducted his hotel and bar in a loose and improper manner, and your petitioners expect to be able to furnish facts, giving names and dates in addition to those herein above set forth.

Your petitioners therefore pray the Court to revoke the liquor license heretofore granted to said Edward Haley, and to issue rule on the said Edward Haley to show cause why the license should not be revoked on account of the facts herein set forth.

The petition is signed by the following: R. D. Walker, H. V. Frump, Edward F. Brown, Sam'l Fitzgerald, S. S. Houseman, Joseph Parkins, Tho. Skillcorn, Philip

CORNER STONE LAYING YESTERDAY

Impressive Ceremonies Conducted By Lutheran Congregation.

Impressive services marked the laying of the corner stone of the new Christ Lutheran church on the corner of Washington avenue and Sixth street, yesterday afternoon. While the program announced Saturday was not carried in its entirety, there were few changes and these were for the better. Rev. G. M. Hindel, of Beechview, Pittsburg, was unable to be present for some reason, and Rev. Harvey M. Leach, of Dubuque, Iowa, the first pastor of the local Lutheran congregation took his place and delivered the principal address of the day. The choir of the Lutheran church furnished the music. A photograph of the audience, speakers and the stone was taken before the speaking of Rev. Leach, by photographer Clutter.

The services to the laying of the stone were opened by an anthem by the choir, "Good Doth Reign." The pastor of the church, Rev. Chalmers M. Frontz asked the invocation and the congregation sang, "Gloria Patri." Rev. H. C. Boblitt of the Christian church read a passage of the scriptures, a hymn, "Holy, Holy, Holy," following. Rev. M. M. Allbeck, of the Lutheran church of Modeston offered prayer and an offering was taken. In this \$402.64 was realized, to be used in paying for the structure which is being erected.

Rev. H. M. Leach after the singing of the hymn, "How Firm a Foundation," made his address. Rev. Leach spoke of the fidelity of the Lutheran people here in their noble enterprise, against fearful odds. He congratulated the congregation and

FISTIC ENCOUNTER SATURDAY NIGHT

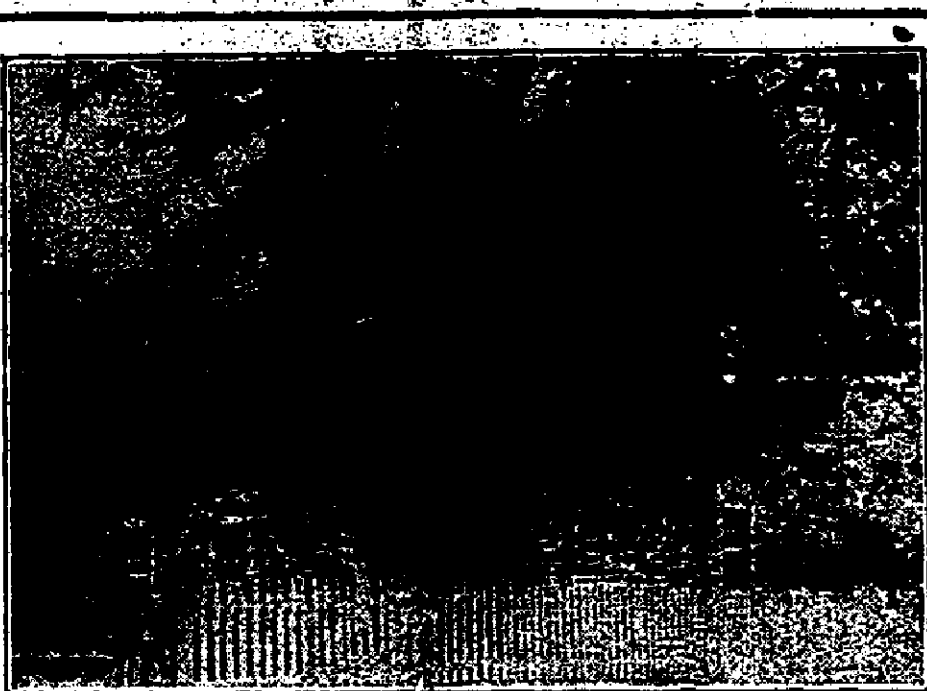

Miners Absorb To Much Liquid Joy And Agitate a Row.

Considerable excitement was stirred up Saturday night by an altercation between foot men, three of them miners, all of whom were pretty well "tanked." The incident occurred near the Wellington hotel, at McKean avenue and Sixth street. The time of the fight was such that many of shoppers were returning home, and on this account many women were in the neighborhood. Some of these fell into a panic at the noise, thus adding to the excitement and raising a commotion which was almost a half-

The petition is sworn to by R. D. Walker before Justice E. E. Rice of Charleroi. Mr. Walker states that he is a citizen and a qualified voter of Roscoe and avers that the facts set forth in the petition are true as he verily believes.

GRAFTON DROPS LAST TO CHERUBS; FAIRMONT TAKEN OVER SUNDAY

All that Charleroi had to do after the first inning of Saturday's game with Grafton was to keep the visitors from scoring more than five runs. By landing on John McIlvaine for four safe hits which coupled with an error and a base on balls the Cherus dropped the game.

McIlvaine then steadied down and kept the Cherus from crossing the gum until the sixth when one more tally was sent over. Arch Osborne pulled off the trick of laying one down and beating it out. Willis Humphries sent him to second with his out and when Nally hit for three bases, Arch crossed. Nally tried to stretch his drive into a homer and was caught at the plate. The seventh inning brought cyphers for the locals but in the eighth they tallied twice. Heinz got soaked with one and Urban pulled the bunt trick off. Osborne advanced both by going out from Ferguson to Jenkins and Willis Humphries sent them in with a single. Four runs were as much as the Grafton boys cared for and were satisfied to make them in two different innings. They didn't get started until the third when two were made on a batter hit, a single and an error. They seemed very well satisfied with their lot until the ninth when they chased two over just to even things up a little. A single, a batter hit and another single were responsible for the runs. Fairmont, W. Va., Aug. 30.—Charleroi defeated Fairmont in an uninteresting game today, 3 to 2. Walters of Fairmont was pitted against Arch Osborne of the visitors, and neither southpaw had an advantage. King lost the contest to the visitors with a wild throw to Fisher in the eighth. Umpire Guehler was sick, and two players officiated. Both teams started out well in the first, the visitors scoring Dunn after he had singled and Dailey tripled. In their half the locals secured two. Core led off with a double, reached third on King's but and scored on Parker's fly to right. Keener hit for two bases and scored on Snodgrass' single. Charleroi tied things up in the fourth when Dailey, Heinz and Urban enjoyed a little batting-est at Walters' expense, scoring Dailey. In the eighth, with one man down, Dunn singled and was out on Dailey's single. Toohy, who threw wild to first and Dailey made second, scoring on Toohy's single. Score:

A bunch of ball tossers who style themselves the Monessen Independents having heard of the Cherus being easy meat for the other teams in the Pawva league thought they would add a little humiliation and issued a challenge. This was readily accepted by Manager Osborne and everything was arranged for Saturday afternoon. Grafton being scheduled here it was decided to play the game after the regular league game. A bunch of loyal supporters followed the Monessen tribe over and of course naturally swelled the attendance at the first game. Mack was sent out by Osborne and as soon as they seen him the Monessen boys got cold feet. Four hits for no runs was the best the Independents could do. Underwood did the delivering for the visitors and was touched up for seven hits for four runs in the six innings played. Score:

JURY IN LENHART CASE COUL' REACH NO AGREEMENT

FRYE REUNION WELL ATTENDED

Descendents Of Benjamin and Christain Fry Renew Old Acquaintance.

The descendants of Benjamin and Christian Frye of old Virginia met in their annual reunion at Eldora park Saturday. About two hundred were present and spent the day enjoyably with their kinfolk, it being the first time that many have met since the reunion held the last Saturday of August 1908.

The various families assembled at the park during the forenoon and spent the time in the morning in renewing acquaintances. A picnic dinner was served after which the business of the election of officers and other minor affairs was taken up. The same officers with one exception were elected as that of last year: C. O. Frye of Charleroi vice president; Mrs. Van Voorhis of Belle Vernon secretary; and Miss Clara Frye, of Fallowfield township, assistant secretary taking the place of last years incumbent Miss Price Frye of Charleroi.

Addresses were made in the afternoon by Rev. Monninger, a traveling Sunday school worker of the Christian church and Mr. Jesse Frye of Ohio.

Several letters of regret were read from a number who were unable to be present. The meeting was adjourned by the singing of the old hymn "God Be With You Till We Meet Again."

There are a large number of descendants of Benjamin and Christian Frye, most of them now residing in this county, although there are many families scattered over Western Pennsylvania, and many states of the union. Mrs. Van Voorhis, of Belle Vernon has compiled almost a complete history of the family.

MACBETH-EVANS WILL RUN FULL

Fires Built Under Tanks Saturday Means Full Operation.

Fires were started in the tank department of the Macbeth-Evan glass factory Saturday which means that the plant will be started in full in about two weeks as it takes about that much time to get the tank in working shape. By starting this portion of their works the company will nearly double their present output and furnish employment to about two hundred and fifty more men and boys. The fires were drawn from the tank the latter part of June and since that time the company has been furnishing work to about half of their employees.

By starting this department the company will have their plant running to very near its full capacity as it will turn out as much finished ware as the remaining portion of their factory is capable of producing.

Blindness.

When the constables made their customary report to the court a few weeks ago there was not a house of ill repute reported in the county, and evidently the county had been extremely quiet during the three months prior to the calling of the officers to the county seat. Nevertheless, at the time the reports were made and given to that there existed a disorderly house on Maple Creek which would hardly fail to come to the notice of the officers of the county who were not troubled with a strange blindness to such places. This was the house that was burned to the ground on Saturday morning last. Although the origin of the fire is given by some of the women occupants as coming from an explosion of gasoline whispermings to the effect that it was the work of an incendiary. It is stated that either some of the people who reside in that section or else some upriver people set fire to the place as a means of getting rid of undesirables. This was mentioned to prove that the house was known far and wide.

The officers themselves were aware of the presence of the obnoxious person and some did really make an effort to have them chased from this section, being unsuccessful in their attempt however. Others it is said, instead of having the place raided and bangers driven away failed to do their duty and instead patronized the resort. Upon whose shoulders the duty of making such a place fell is not known, but it certainly was the business of some one, and the returning of the report that no such place existed is a sheer neglect of duty and the guilty one should be brought to account. It is hard, we admit to convict the keepers of such places, but it is not impossible. Evidence enough to make an arrest could easily have been secured and more might have been obtained at a subsequent hearing.

Among the Exchanges

Trading the Sandwich.

Speaking of sandwiches—that is their purpose—to kill hunger. No body ever bought a sandwich for the joy of it. There is the well-known ham sandwich, the most successful appetite eliminator on the market, whose pleasure is the satisfaction one has, while eating it to know that he is not starving. It is the same with all the meat sandwiches. A roast beef sandwich is no better. An egg sandwich is an insult to polite taste, and a chicken sandwich is a spoilation of both the bread and the chicken.

But the old ham sandwich is only the beginning of an evolution. The lettuce sandwich dawned some time ago. It was a great improvement. Then, there is the onion sandwich, as tasty a food as was ever built, in which the heroic flavor of the onion comes like a waft of wind over a bed of lilies. Now we have the cress sandwich—as dainty a dish as was ever set before the king. Spread thin slices of bread with mayonnaise, and put them together with a layer of chopped cress sprinkled with a little lemon juice. There you are. It is moonlight to the lovers—not another fellow coming around. See the point? Well, then, make your sandwiches out of the golden grain, garnished with the joy of the garden and the green banks of the wimpling brooks. —Ohio State Journal.

FAST MOTOR BOAT FOR OLD HOME WEEK

Capt. R. L. Elwood, chairman of the aquatic day sports, has received a letter from John Best, of Jeannette, in which the writer states he will be in Monongahela on that day of old home week, to display his new device for the rapid propulsion of boats. Mr. Best has a boat which he claims can make 35 miles an hour, and if he can get his machinery arranged by that time will give a demonstration on the river. This boat is constructed along radically different lines from anything ever before attempted, and with the addition of a peculiarly constructed propeller is claimed to be able to make the speed specified above.

CLARKSBURG WANTS POST SEASON SERIES

That Clarksburg is out for revenge whether they win the Pennsylvania and West Virginia league pennant or not is shown by the fact that the Drummers have just issued a strong challenge to the Uniontown club for a series of six post season games to be played in Clarksburg, Uniontown and Fairmont.

The plan was broached by the Clarksburg management to the Uniontown directors at the county seat a few days ago, but the Uniontown management did not take kindly to the idea and turned it down. It is the intention of the Clarksburg club to force the Onions into a series of moulding popular opinion.

From a financial standpoint the series would be a success. The games at Uniontown would draw, besides from Uniontown, heavily from Connellsville, Scottdale and Charleroi. Arrangements could be made to play a Sunday game at Clarksburg and one game at Fairmont. Arrangements might also be made to play one game in Connellsville. All the Clarksburg players are under contract until September 15, so no trouble will be encountered on that score.

UNDERWOODS HEARING HAS BEEN POSTPONED

William Underwood of Marianna, charged with violating the mining laws of Pennsylvania, was to have been given a hearing before Alderman Day of Monongahela this morning but on account of important witnesses not being able to be present it was postponed until a later date.

Mine Inspector Henry Loutitt is the prosecutor and the allegation is that Underwood was directly or indirectly responsible for the explosion which occurred at the Marianna mine on August 12. As a result of the explosion one man was burned to such an extent that he died the next day and another is still critically ill and a third was painfully burned.

Underwood is the mine boss at the Marianna mine and at the time of the explosion it is said the men were working under his orders.

CORNER STONE LAYING YESTERDAY

Continued from page one.

Rev. Frontz, the pastor, on having the foundation for a structure laid, which would when completed be among the finest houses of worship in this city and spoke feelingly of when he was pastor of the church and how the little company of thirty worshippers which met for the first time seven years ago in the Charleroi Savings and Trust company hall to worship, has increased wonderfully until the membership is at present one hundred and fifty. He expressed himself as being extremely thankful to be present to take part in the exercises, and again to be among his own people.

At the conclusion of Rev. Leech's address, Rev. M. M. Allbeck, of Monessen made a few remarks, and was followed by a representative of the Charleroi Ministerial association, the president himself, Rev. G. G. Kerr. Announcement was made of the contents of the box which was to be placed of the cornerstone, and the package placed therein. It contained various things, among which were a bible, hymnal, Lutheran papers and a copy of the Mirror and the Mail. The cornerstone was then placed in position by the contractors. Rev. Frontz, placed the first bit of cement. The ceremonies over the stone took place, followed by the singing of the "Doxology," and the pronouncing of the benediction.

A large number were present to witness the services.

CUTTING AFFRAY AT LUCYVILLE

In a cutting affray at Lucyville Saturday night, Charles Bondik was badly cut by James Barovia. He was slashed between the eyes, on the ear and below the ear. Barovia escaped, but Bondik came to Charleroi this morning and made complaint against Barovia before Justice Rice on a charge of assault and battery. The constable was sent after Barovia, and expects to land him today. Bondik and Barovia are brothers-in-law, but the latter evidently does not believe in brotherly love as Bondik can testify to his regret.

Brigade Will Meet.

Tomorrow night the Boy's Brigade, after a long idleness, will resume practices. The Brigade discontinued practice about a month ago. As the school season is now about to start, most of the members are back in town, and the Brigade desires as large an attendance as possible, as they wish to get all the practice they can before going to Monongahela to participate in the mammoth military parade on Wednesday, Sep. 9, of Monongahela Old Home Week.

Captain Jolliffe has received a written invitation to place the Brigade in the parade, and will probably reply favorably on behalf of the boys. The meeting tomorrow night will be held at the usual place, the tennis courts on McKean avenue.

Vander Gould's Latest Stunt.

According to an Iron River paper the latest stunt to be pulled off by the Great Vander Gould is to go into a saloon and figuratively speaking "shoot the place up". This stunt is pulled off at the expense of some unsuspecting officer who makes an arrest and later is surprised to find the offender following him from the jail.

THE WAGE SCALE MAY BE SETTLED

President Shim of the Window Glass Cutters and Flatners association stated Saturday that there were prospects of a settlement of the wage scale this week. It is expected that some action in the matter will be taken Monday or Tuesday.

There is much speculation as to where the international headquarters are to be located, in the event of A. L. Faulkner being re-elected president. His headquarters are now in Cleveland but if elected an effort will be made to have them transferred to Pittsburgh.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

DAMES AND DAUGHTERS.

Mrs. Laura Holtz Schneider is an alderman of Buena Vista, Colo. It is said of her that she has given the most effective service ever given by an alderman of that town.

Mrs. Kean, mother of the senior New Jersey senator, is past eighty, yet is active in society. She spends much of her time making silk quilts of pieces from gowns of friends.

Viscountess Falkland of England is an American peeress, a daughter of Robert Reade of New York, and she is a lady of grace of the Order of St. John of Jerusalem as well.

Mrs. Mary E. Miller, a Chicago attorney and counselor, received a fee of \$30,000 for gaining a suit for the grandchildren of William Brown for the distribution of his \$3,000,000 estate.

Mrs. E. E. Tenpe and her daughter, Mrs. Mackelvie, recently accomplished the feat of a 4,000 mile trip in an automobile from Portland, Me., to Portland, Ore., without the presence or assistance of men.

Dr. Kathryn Standly of Brookfield, Mo., has been appointed by Governor Folk as a delegate from Missouri to the international congress on tuberculosis, to be held in Washington Sept. 21 to Oct. 12.

Miss Grace Bryan, second daughter of William J. Bryan, is quite a scholarly girl, and it is expected that she will go to college in the fall, she having been preparing for the last two years at a Virginia school. She is said to resemble her mother very much.

Famous Noses.

The immortal Ovid, surnamed Naso, had a bottle nose.

Lycurgus and Sison had noses each six inches in length.

Scipio Nasien derived his name from his very prominent nose.

Antiochus VIII, was called "Grypus" because his nose was as big and hooked as a culture's beak.

In the medals of Cyrus and Artaxerxes the tips of their noses came clear out to the rim of the coin.

Mohammed's nose was so curved that the point seemed to be endeavoring to insert itself between his lips.

Numa's nose was six inches in length, whence he obtained his surname of Pompilius, as being the owner of a superlative nose.

Great Frederick's nose was so prominent that Lavater offered to wager his reputation that, blindfolded, he could tell it out of 10,000 other noses by simply taking it between his thumb and finger.

Church and Clergy.

The Prussian government has authorized a great lottery to defray the cost of repairing the famous cathedral at Cologne.

Excavations at Herham abbey, in England, show that St. Wilfrid's cathedral, built about 674, was a part of the present abbey.

After an absence of many years at Rome Mgr. John Vaughan, a brother of the well known Father Bernard Vaughan, is to return to London in October to deliver four sermons at Westminster cathedral.

For fourteen years Rev. J. S. Thomas, an evangelist of the Baptist Home Mission society, has been traveling in a chapel car, holding meetings from Minneapolis to New Orleans, and has built thirty churches in that time.

College and School.

The oldest of Oxford's colleges, University, was founded in 1249.

The average annual cost per pupil for public school education in Germany is \$12.36.

Mrs. Mary Quimby recently closed her school in the Buzzell district, Wakefield, N. H., making forty-five consecutive years she has been engaged in the work.

Nearly all the states in the American Union established free public schools between 1840 and 1850. But the graded system of instruction was carried out only in the large cities. In a country school there were sometimes more classes than scholars.

State Lines.

A new law in Louisiana has lifted the robe out of the list of game birds. Colorado has a marble deposit worth more to the ton than any but the very highest grade of gold ore.

In the eleven counties of southeast Missouri, containing swamp or overflowed lands, thirty-one drainage ditches or canals have been constructed, with a total length of about 660 miles. These ditches have reclaimed 255,000 acres of land.

Bible Money.

A gerah was 1 cent.

A shekel of gold was \$3.

A farthing was 3 cents.

A talent of silver was \$338.30.

A mite was less than a quarter of a cent.

A piece of silver, or a penny, was 13 cents.

A shekel of silver was about 30 cents.

Proverbs.

Shear the sheep, but don't fly them.—Latin Proverb.

Fly the pleasures which bite tomorrow.—German Proverb.

Those that are quick to decide are unsafe.—Greek Proverb.

Do what you know and you will know what to do.—French Proverb.

Brevities

THE HALL OF FAME.

Dean Russell of the University of Wisconsin has selected Mrs. Scott Durand to lead the movement for securing pure milk legislation.

George Ellery Hale, director of the solar observatory of the Carnegie Institution of Washington at Mount Wilson, Cal., has been elected corresponding member of the Academy of Sciences.

J. C. Rock of Washington now claims to be the youngest civil war veteran, stating that he enlisted in Company G, Sixth Vermont volunteers, in October, 1861, when fourteen years and two months old.

Louis A. Wood and Mary Schelen jumped off the train at Waterbury, Conn., the other day, hurried to the town clerk's office, were married and took a homeward train all inside of thirty minutes, which is a record in that town.

The death of General Stephen D. Lee leaves only two surviving lieutenant generals of the Confederate army. They are General A. P. Stewart, ranking lieutenant general of the Confederacy, of Biloxi, Miss., and General Simon Bolivar Buckner of Kentucky.

Rear Admiral Caspar F. Goodrich, commandant of the Brooklyn navy yard, has been designated to attend the coming celebration of the founding of the University of Saragossa, Spain. Major General Leonard Wood will represent the army.

Ten members of the late President Cleveland's cabinets survive—Richard Olney, Don M. Dickinson, Judson Harmon, John G. Carlisle, David R. Francis, Norman J. Coleman, William F. Vilas, Hoke Smith, Charles S. Fairchild and Elihu A. Herbert.

Secretary of War Wright appointed Walter R. Pedigo of Virginia to be his private secretary, vice Fred W. Carpenter, who resigned to go with Judge Taft. C. C. Wagner of Reading, Pa., has been appointed confidential clerk to Secretary Wright.

Fly Catches.

In the matter of young pitchers who are filling the bill in clever style this season McQuillen of the Philadelphia Nationals must not be overlooked.

Ex-Manager Frank Dwyer of Geneva, N. Y., who unifies college games, declares that Cincinnati's pitcher from Michigan university, Sincok, "has the goods" and will make good in the big league.

Manager Jim McAleer of the St. Louis Americans has picked up a very promising pitcher in South Paw Graham. He is only a youngster, and when he gets better control of the ball he will be hard to beat by any team that has several left handers on it.

Wilson of the Pittsburgh Nationals is one of the best throwing outfielders in the business.

Big Ed Walsh of the Chicago Americans has much the same style in his delivery that Jim Devlin, the old Louisville pitcher, had.

English Etchings.

Aldermen were first appointed for London in 1242.

John Milton's autograph, appended to a marriage contract dated 1623, was recently sold for £322.

Government analyses of so called temperance drinks sold in England prove that they contain from 2 to 12.3 per cent of alcohol.

Of the forty-four English county chief constables, only three have risen from the ranks, thirty-three being ex-army officers and one an ex-navy officer.

A lunatic named Bedlington, who died at Morpeth asylum, imagined he was a gun. He placed a quantity of gunpowder in his mouth and then ignited it with a match.

Home Helps.

Headache will often yield to a foot-bath without other treatment. Try it. A little vinegar added to butter and sugar is an excellent remedy for hoarseness.

When burning vegetable refuse in stove or furnace, put a handful of salt into the fire and there will be no unpleasant odor.

Every night the housewife should rub cold cream into the base of her nails. To avoid the injurious effects of sweeping and dusting she should always wear gloves.

When boiling milk, put two tablespoonsful of water in the pan first and let it boil. Milk boiled in this way will never burn to the bottom of the saucepan.

Facts From France.

Elephants are being employed in Paris as sandwich men to advertise a music hall in the Champs Elysees.

At Lyons, France, and surroundings the greater part of the weavers have been working only three days a week since last December.

It is noted that, while the French colonies are fast becoming an outlet for the overpopulation of other nations, they are constantly growing more French.

The artificial cultivation of snails is an extensive and flourishing industry in France, no less than 2,500,000 pounds of this succulent delicacy, as Frenchmen consider it, being consumed annually.

SIRES AND SONS.

John W. Gates has contracted for the construction of the finest golf links in the world at his home at Port Arthur, Tex.

Colonel Dick Bright, former sergeant at arms of the senate, has the reputation of being able to carve a roasted pig more skillfully than any man in the south.

Secretary of the Interior Garfield has decided to decimate the ranks of the regiment of women in the departments at Washington. At least in the department of the interior the higher class of women clerks must give way to men, it is said.

Count Sergius Witte is not only no longer at the helm of the Russian government, but stands almost alone even in the council of the empire. Nevertheless a strong feeling prevails that Count Witte's day is not done; that he will be recalled in the first emergency.

Probably the oldest man alive is Hadji Raouf, who lives in Constantinople and is said to be 132 years old. He still works at his profession of saddlemaking and has never left the house which he was born in. His father is believed to have lived to the age of 142.

When Dr. James Curtis Hepburn of Orange, N. J., attended commencement at Princeton last June he celebrated the seventy-sixth anniversary of his graduation from college. He received his diploma in 1822, was graduated in medicine at the University of Pennsylvania in 1836 and is Princeton's oldest alumnus. He recently passed his ninety-third birthday.

Constantin Brun, the Danish minister to the United States, will be transferred from Washington to London in the autumn to succeed F. E. de Bille, who retires from the diplomatic service. Count Carl von Moltke, the Danish minister to Italy, whose wife was Cornelia Van Rensselaer Thayer, daughter of Nathaniel Thayer of Boston, will succeed M. Brun at Washington.

Gleanings.

Scientists believe that eating apples greatly benefits the body by increasing animal electricity.

Three Vermont newspapers are more than a century old—the Windsor Journal, founded in 1783; Rutland Herald, in 1794; Montpelier Watchman, 1806.

The custom of shaking hands can be traced to the days of the ancient Israelites and was intended to signify peace, to swear friendship, to promise alliance or to give security.

The land commissioner of the department of the interior is the biggest real estate agent in the country. He received \$11,533,178 for his cash sales in 1907 and disposed of 20,997,556 acres.

Concord, N. H., has a "white wings" street cleaning brigade just like the famous squads devised by the late Commissioner Waring for New York. The men wear white duck overalls and jumpers, which are kept clean at the expense of the city.

A postoffice will be installed on every ship in the United States navy, authorization having been made at the last session of congress. Enlisted men on each ship may be appointed as postmaster and assistant postmaster, their regular pay to be increased by \$500 and \$300 a year respectively.

Tales of Cities.

Lowell has about 8,000 Greeks in its population, and about 100 of them are registered voters.

New York city has one public park that is 250 years old, and that is Bowling Green, which was the playground of the first Dutch settlers.

London eats 3,000 tons of potatoes each day, 750,000 cabbages, 3,000,000 loaves of bread, 250,000 gallons of milk and in a season 10,000 pecks of beans and peas.

The city of Budapest, Hungary, is preparing to make a novel experiment in the way of municipal enterprise. Bids have been invited for a city bakery with a daily capacity of 55,000 pounds of bread. The most recent designs of machinery will be installed, and the baking will be done by the continuous process.

The Royal Box.

Princess Stephanie of Belgium has patented a chasing dish and put it on the market.

Emperor Francis Joseph of Austria is seventy-eight years old, but he is still an ardent hunter.

The German emperor hunts in a coat and cape of pale blue trimmed with green, red trousers, high patent leather boots with gold spurs, a green leather belt containing a gold handled hunting knife and a green felt hat with a feather in the side.

King Edward is said to be in better health at the present time than he has been for some years. His weight is not so great as it was a short time ago, and, yielding to the urgent advice of his physician, he is taking, for him, quite a lot of walking exercise.

Train and Track.

Steel rails average 130 tons of metal to the mile, iron 145 tons.

There are 693,000 season tickets in operation issued by the railway companies of Great Britain.

The supreme court of New York has decided that the Interborough Rapid Transit company may engage in the business of selling power.

The annual report of the insurance department of the Pennsylvania Railroad company shows that in a year lighted cigars, cigarettes and matches cost the company \$40,000 in fire.

HINTS FOR FARMERS

—Weeds That Sheep Eat.

The Minnesota station gives the analyses of weeds which sheep eat readily and their protein contents compared with alfalfa, clover and timothy hay. It will be a surprise to many to see how high in protein these weeds are, and it suggests the reason sheep flourish on them, worthless as they are otherwise. Here are the analyses: Lambs' quarters, 25.06 protein, 54.64 carbohydrates, 1.90 fat; purslane, 26.13 protein, 53.70 carbohydrates, 2.9 fat; pigweed, 26.54 protein, 62.86 carbohydrates, 1.36 fat; dandelion, 24.64 protein, 58.95 carbohydrates, 2.70 fat; catnip, 22.25 protein, 63.07 carbohydrates, 2.66 fat; goldenrod, 11.63 protein, 76.63 carbohydrates, 4.55 fat; mustard, 15.75 protein, 75.50 carbohydrates, 1.55 fat; quack grass, 11.27 protein, 79.12 carbohydrates, 1.96 fat; alfalfa, 20 protein, 40.64 carbohydrates, 2.46 fat; clover, 12.35 protein, 52.29 carbohydrates, 3.65 fat; timothy hay, 8.75 protein, 41.70 carbohydrates, 2.16 fat.

Soiling Crops.

A mixture of Kafir corn and cowpeas at the Pennsylvania station produced the largest yield of green substance per acre, was relished by the cows and was entirely satisfactory from the standpoint of milk production. Alfalfa produced the largest yield of air dry substance per acre, and the cows seemed to hold up better in milk production when on alfalfa than on any other crops tested. Oats and peas proved satisfactory as a soiling crop. It produced the earliest soiling crop and gave a large yield of dry substance per acre, but under average conditions it opens too quickly to be most satisfactory. The different storage crops tested seemed to have little, if any, effect upon the composition of the milk.—American Cultivator.

Plans For New Dairy Barns.

For the past two or three years the dairy division of the department of agriculture has been making an investigation of all the principal dairy barns in the United States and a study of the best methods of construction, with reference to convenience, cheapness in feeding and hauling of stock, sanitation, etc. The result is that the division has a large number of plans suitable for building barns and stables of varying costs, so that any one contemplating building a barn can obtain, by simply corresponding with the chief of the division, a set of building plans which will probably just about meet his needs.

Horse Sense.

Turning the work teams out to pasture at night is better than keeping them shut up in a close, poorly ventilated stable.

Every farmer must have horses. Why not have the best, then, and make a nice little profit on the side from the colts?

The time to sell the colt is when a good price is offered. It's good policy to have him ready to attract the good price, though.

Begin to handle the little fellow when he is very young if you would keep him from getting wild. Be judicious about it, though, at all times.

Hog Notes.

The hog with large bones is rapidly growing in favor.

Very frequently the feeding amounts to more than the pedigree.

Dipping hogs is no longer a tedious job. The modern tank simplifies it.

An average litter of seven or eight pigs will be pretty nearly sure profit.

A good way to save high priced corn is to provide good alfalfa pasture.

The man who never has dipped his hogs is the man who objects to it most.

A good boar will do a great deal to put the hog end of your farming upon solid footing.—Kimball's Dairy Farmer.

Spinach Omelet.

Make a pint of spinach in the usual way—that is to say, after having boiled it till tender chop it very fine and rub it through a coarse wire sieve, season with salt and pepper, stir over the fire and add two ounces of butter and a little cream. Take two tablespoonfuls of the spinach and stir it into four eggs which have been previously beaten, yokes and whites separately. Add a little piece of shallot which has been rubbed through the sieve, and salt and pepper to taste. When thoroughly mixed put the whole into an omelet pan with two ounces of butter and fry, a pale brown. Serve very hot.—By-stander.

The Prevailing Craze.

"My wife bit her tongue this morning."

"Mercy on us! Is she mad?"—Baltimore American.

Recognition.

"I'm sure I must have met you," She said and looked me over. "Oh, yes; we were engaged last year And also once before!"—Pick-Me-Up.

Always Taking Chances.

"Spiggins is an inveterate gambler." "Yes; I understand that he has been married several times."—Detroit Free Press.

FISTIC ENCOUNTER SATURDAY NIGHT

(Continued from first page)
brother to a riot. Men in the vicinity at the time, tried to separate the fighters, while some of the by-standers, being in a condition somewhat akin to that of the contestants, urged them on. A call was sent to the police, and Chief Albright and Officers Higgins and McEldowney responded, and succeeded in rounding up three of the "scrappers," but the fourth being in a much better condition than the other three, "beat it" up the alley and escaped. Nevertheless the police have several valuable clues as to his identity and residence, and expect to land their man sometime today.

The men who were captured were Joseph Carcoski, Martin Andowick, and Charles Dorbritz. Carcoski is a resident of Vesta and works in the mines at that place. Andowick is also a miner, but he resides in Charleroi and works in the mines here. Dorbritz is a factory-worker here. Chief Albright and Officer Higgins took care of Carcoski and Andowick, while Dorbritz made a tour to the calaboose personally conducted by Officer McEldowney. The former two were locked up, but Dorbritz posted a forfeit of \$10 for his appearance.

At the hearing Sunday morning Carcoski complained that as he got the worst of it he should be let off, but the bargess ruled otherwise and all three were fined \$5 and costs, amounting to \$6.55 in all.

PETITION FILED IN COURT FOR REVOCATION OF LICENSE

Citizens Allege That Haley
Was Careless In His
Business.

HEARING SEPTEMBER 7

Petition Presented By R. W.
Knox Attorney Saturday
Morning.

R. W. Knox, attorney for the Anti-Saloon league and representing the Jerome Plummer Temperance fund on Saturday filed in the office of the clerk of courts a petition asking for the revocation of the retail liquor license of Edward Haley, at the Central Hotel, in the borough of Roscoe. The petition came as a surprise as it was not known that the hotel had any opposition. The petition was presented to Judge McIlvaine, who granted a rule on Mr. Haley to show cause why his license should not be revoked, and fixed Monday, September 7, as the date for the hearing.

Mr. Haley only recently applied to the court for leave to have the license held by him transferred to William Coulson, of Donora, and the hearing on the transfer had been set for next Monday. On account of the petition filed Saturday the hearing will now be postponed until the other matter is disposed of.

The following is a copy of the petition asking for the revocation of the license:

"To the Honorable, the Judges of said Court:

The petition of the undersigned respectfully represents:

"That they are citizens and inhabitants of the borough of Roscoe, Washington County, Pennsylvania.

"That on November term, 1907, the license was granted to the Central hotel in Roscoe, Washington County, Pennsylvania, running from

Edward Haley has not been careful in the manner of conducting his business, and in giving it his personal attention, as your petitioners are informed, believe and expect to be able to prove, and set forth the following facts which have been obtained and on which the charges herein made are based:

"1. The said Edward Haley has furnished intoxicating liquor to men of known intemperate habits as follows: Frank Hazelbaker (May 16, 1908—date when he was killed—and other dates,) Tom Roberts, Lem Osterander, George Hughes, Mat Flint, Jack Young and George Gillies.

"2. The said Edward Haley has furnished intoxicating liquors to divers others of known intemperate habits, and in other ways conducted his hotel and bar in a loose and improper manner, and your petitioners expect to be able to furnish facts, giving names and dates in addition to those herein above set forth.

"Your petitioners therefore pray that you will revoke the liquor license heretofore granted to said Edward Haley, and to issue rule on the said Edward Haley to show cause why the license should not be revoked on account of the facts herein set forth.

The petition is signed by the following: R. D. Walker, H. V. Frump, Edward F. Brown, Sam'l Fitzgerald, S. S. Houseman, Joseph Parkins, Tho. Skillcorn, Philip

CORNER STONE LAYING YESTERDAY

Impressive Ceremonies Con-
ducted By Lutheran
Congregation.

Impressive services marked the laying of the corner stone of the new Christ Lutheran church on the corner of Washington avenue and Sixth street, yesterday afternoon. While the program announced Saturday was not carried in its entirety, there were few changes and these were for the better. Rev. G. M. Hindel, of Beechview, Pittsburg, was unable to be present for some reason, and Rev. Harvey M. Leech, of Dubuque, Iowa, the first pastor of the local Lutheran congregation took his place and delivered the principal address of the day. The choir of the Lutheran church furnished the music. A photograph of the audience, speakers and the stone was taken before the speaking of Rev. Leech, by photographer Clutter.

The services to the laying of the stone were opened by an anthem by the choir, "Good Doth Reign." The pastor of the church, Rev. Chalmers M. Frantz asked the invocation and the congregation sang, "Gloria Patri." Rev. H. C. Boblitt of the Christian church read a passage of the scriptures, a hymn, "Holy, Holy, Holy," following. Rev. M. M. Allbeck, of the Lutheran church of Modestown offered prayer and an offering was taken. In this \$402.64 was realized, to be used in paying for the structure which is being erected.

Rev. H. M. Leech after the singing of the hymn, "How Firm a Foundation," made his address. Rev. Leech spoke of the fidelity of the Lutheran people here in their noble enterprise, against fearful odds. He congratulated the congregation and

Considerable excitement was stirred up Saturday night by an altercation between four men, three of them winners, all of whom were pretty well "tanked." The incident occurred near the Wellington hotel, at McKean avenue and Sixth street. The time of the fight was such that many of shoppers were returning home, and on this account many women were in the neighborhood. Some of these fell into a panic at the noise, thus adding to the excitement and raising a commotion which was almost a half-

GRAFTON DROPS LAST TO CHERUBS; FAIRMONT TAKEN OVER SUNDAY

All that CharleROI had to do after the first inning of Saturday's game with Grafton was to keep the visitors from scoring more than five runs. By landing on John McIlvaine for four safe hits which coupled with an error and a base on balls the Cherubs chased five runs over the gum. McIlvaine then steadied down and kept the Cherubs from crossing the gum until the sixth when one more tally was sent over. Arch Osborne pulled off the trick of laying one down and beating it out. Willis Humphries sent him to second with his out and when Kelly hit for three bases Arch crossed. Nally tried to stretch his drive into a homer and was caught at the plate. The seventh inning brought cyphers for the locals but in the eighth they tallied twice. Heinz got soaked with one and Urban pulled the bunt trick off. Osborne advanced both by going out from Ferguson to Jenkins and Willis Humphries sent them in with a single. Four runs were as much as the Grafton boys cared for and were satisfied to make them in two different innings. They didn't get started until the third when two were made on a batter hit, a single and an error. They seemed very well satisfied with their lot until the ninth when they chased two over just to even things up a little. A single, a batter hit and another single were responsible for the runs.

Fairmont, W. Va., Aug. 30.—CharleROI defeated Fairmont in an uninteresting game today, 3 to 2. Walters of Fairmont was pitted against Arch Osborne of the visitors, and neither southpaw had an advantage. King lost the contest to the visitors with a wild throw to Fisher in the eighth. Umpire Guebler was sick, and two players officiated. Both teams started out well in the first, the visitors scoring Dunn after he had singled and Dailey tripled. In their half the locals secured two. Core led off with a double, reached third on King's but and scored on Parker's fly to right. Keener hit for two bases and scored on Snodgrass' single. CharleROI tied things up in the fourth when Dailey, Heinz and Urban enjoyed a little batting-fest at Walters' expense, scoring Dailey. In the eighth, with one man down, Dunn singled and was out on Dailey's single, to short. King threw wild to first and Dailey made second, scoring on Toohy's single.

A bunch of ball tossers who style themselves the Monessen Independents having heard of the Cherubs being easy meat for the other teams in the Pawva league thought they would add a little humiliation and issued a challenge. This was readily accepted by Manager Osborne and everything was arranged for Saturday afternoon. Grafton being scheduled here it was decided to play the game after the regular league game. A bunch of loyal supporters followed the Monessen tribe over and of course naturally swelled the attendance at the first game. Mack was sent out by Osborne and as soon as they seen him the Monessen boys got cold feet. Four hits for no runs was the best the Independents could do. Underwood did the delivering for the visitors and was touched up for seven hits for four runs in the six innings played.

JURY IN LENHART CASE COUL' REACH NO AGREEMENT

FRYE REUNION
WELL ATTENDED

Descendents Of Benjamin and
Christain Frye Renew Old
Acquaintance.

The descendants of Benjamin and Christian Frye of old Virginia met in their annual reunion at Eldora park Saturday. About two hundred were present and spent the day enjoyably with their kinfolk, it being the first time that many have met since the reunion held the last Saturday of August 1903.

The various families assembled at the park during the forenoon and spent the time in the morning in renewing acquaintances. A picnic dinner was served after which the business of the election of officers and other minor affairs was taken up. The same officers with one exception were elected as that of last year: C. O. Frye of CharleROI vice president; Mrs. Van Voorhis of Belle Vernon secretary; and Miss Clara Frye, of Fallowfield township, assistant secretary taking the place of last years incumbent Miss Price Frye of CharleROI.

Addresses were made in the afternoon by Rev. Moninger, a traveling Sunday school worker of the Christian church and Mr. Jesse Frye of Ohio. Several letters of regret were read from a number who were unable to be present. The meeting was adjourned by the singing of the old hymn "God Be With You Till We Meet Again."

There are a large number of descendants of Benjamin and Christian Frye, most of them now residing in this county, although there are many families scattered over Western Pennsylvania, and many states of the union. Mrs. Van Voorhis of Belle Vernon has compiled almost a complete history of the family.

MACBETH-EVANS WILL RUN FULL

Fires Built Under Tanks
Saturday Means Full
Operation.

Fires were started in the tank department of the Macbeth-Evan glass factory Saturday which means that the plant will be started in full in about two weeks as it takes about that much time to get the tank in working shape. By starting this portion of their works the company will nearly double their present output and furnish employment to about two hundred and fifty more men and boys. The fires were drawn from the tank the latter part of June and since that time the company has been furnishing work to about half of their employees.

By starting this department the company will have their plant running to very near its full capacity as it will turn out as much finished ware as the remaining portion of their factory is capable of producing.

FINALLY DISCHARGED
New Trial Will Be Given At
November Term Of
Court.

The jury in the Lenhart conspiracy case appeared before Judge Taylor this morning at 9:15 and reported that after continued efforts they had been unable to come to an agreement and were discharged. Lenhart was required to renew his bail and will be given another hearing at the November term of court. While nothing definite has been obtained it is reported that the jury stood 10 for conviction and 2 for acquittal and it is evident that the jury fixer got in his work.

Shortly before noon yesterday the worn out jurors sent a message to Judge Taylor stating they were unable to reach a decision and asking that they be discharged. The court refused this request and directed the 12 men to continue their deliberations and if possible reach an agreement.

Saturday the case was given to the jurors about noon. At 1 o'clock they ordered dinner and it was known then that the jury was divided. The 12 good men and true were out an hour for dinner and at 2 o'clock again took up their deliberations. Off and on during Saturday night the case was gone over, but some of the members of the jury, tired out, endeavored to take naps now and then. It was a long tiresome night for Tipstaves, Taigart and McDonough and they were still on duty yesterday and will be until the jury agrees or comes before the court to be discharged. A disagreement means another trial and the going over again of the many phases of the case that were rehearsed the past week.

Saturday morning Attorney R. W. Irwin, one of the counsel for the defense, completed his arguments. His closing remark was a plea to the jury to carefully consider the facts and then if there was a reasonable doubt to give the defendant the benefit. He called attention to the family of the defendant, his aged father and mother, and what a conviction meant to them.

Attorney Underwood, who spoke for the commonwealth, addressed the jury only about 35 minutes. Considering everything, he said, if they were satisfied beyond a reasonable doubt that the defendant was guilty they should return a verdict of guilty, and not allow any prejudices or feelings to influence them.

Judge Taylor in his charge reviewing carefully the testimony as presented by the commonwealth and defense. With the close of his charge the most interesting criminal case that has been heard in court for sometime was given to the 12 men to make up their decision.

Blindness.

When the constables made their
 quarterly report to the court a few
 weeks ago there was not a house of ill
 repute reported in the county, and
 evidently the county had been ex-
 ceedingly quiet during the three
 months prior to the calling of the offi-
 cers to the county seat. Nevertheless,
 at the time the reports were made and
 given to that there existed a disor-
 derly house on Maple Creek which
 would hardly fail to come to the notice
 of the officers of the county who were
 not troubled with a strange blindness
 to such places. This was the house
 that was burned to the ground on Sat-
 urday morning last. Although the
 origin of the fire is given by some of
 the woman occupants as coming from
 an explosion of gasoline whispermgs
 due to the effect that it was the work
 of an incendiary. It is stated that
 either some of the people who reside
 in that section or else some upriver
 people set fire to the place as a means
 of getting rid of undesirables. This
 only is mentioned to prove that the
 house was known far and wide.

The officers themselves were aware
 of the presence of the obnoxious per-
 sons and some did really make an
 effort to have them chased from this
 section, being unsuccessful in their
 attempt however. Others it is said,
 instead of having the place raided and
 bangers driven away failed to do their
 duty and instead patronized the resort.
 Upon whose shoulders the duty of
 making such a place fell is not known,
 but it certainly was the business of
 some one, and the returning of the re-
 port that no such a place existed is a
 sheer neglect of duty and the guilty
 one should be brought to account. It
 is said, we admit to convict the keep-
 ers of such places, but it is not im-
 possible. Evidence enough to make
 an arrest could easily have been
 secured and more might have been
 obtained at a subsequent hearing.

Among the Exchanges

Trading the Sandwich.

Speaking of sandwiches—that is
 their purpose—to kill hunger. No
 body ever bought a sandwich for the
 joy of it. There is the well-known
 ham sandwich, the most successful
 appetite eliminator on the market,
 whose pleasure is the satisfaction one
 has, while eating it to know that he
 is not starving. It is the same with
 all the meat sandwiches. A roast
 beef sandwich is no better. An egg
 sandwich is an insult to polite taste,
 and a chicken sandwich is a spoilation
 of both the bread and the chicken.

But the old ham sandwich is only
 the beginning of an evolution. The
 lettuce sandwich dawned some time
 ago. It was a great improvement.
 Then, there is the onion sandwich,
 as tasty a food as was ever built, in
 which the heroic flavor of the onion
 comes like a waft of wind over a bed
 of lilies. Now we have the cress
 sandwich—as dainty a dish as was
 ever set before the king. Spread
 thin slices of bread with mayonnaise,
 and put them together with a layer of
 chopped cress sprinkled with a little
 lemon juice. There you are. It is
 moonlight to the lovers—not another
 fellow coming around. See the point?
 Well, then, make your sandwiches
 out of the golden grain, garnished
 with the joy of the garden and the
 green banks of the wimpling brooks.

FAST MOTOR BOAT FOR OLD HOME WEEK

Capt. R. L. Elwood, chairman of
 the aquatic day sports, has received a
 letter from John Best, of Jeannette,
 in which the writer states he will be
 in Monongahela on that day of old
 home week, to display his new device
 for the rapid propulsion of boats.
 Mr. Best has a boat which he claims
 can make 35 miles an hour, and if he
 can get his machinery arranged by
 that time will give a demonstration
 on the river. This boat is constructed
 along radically different lines from
 anything ever before attempted, and
 with the addition of a peculiarly con-
 structed propeller is claimed to be able
 to make the speed specified above.

CLARKSBURG WANTS POST SEASON SERIES

That Clarksburg is out for revenge
 whether they win the Pennsylvania
 and West Virginia league pennant or
 not is shown by the fact that the
 Drummers have just issued a strong
 challenge to the Uniontown club for a
 series of six post season games to be
 played in Clarksburg, Uniontown and
 Fairmont.

The plan was broached by the
 Clarksburg management to the Union-
 town directors at the county seat a
 few days ago, but the Uniontown
 management did not take kindly to
 the idea and turned it down. It is
 the intention of the Clarksburg club
 to force the Onions into a series by
 moulding popular opinion.

From a financial standpoint the se-
 ries would be a success. The games at
 Uniontown would draw, besides from
 Uniontown, heavily from Connells-
 ville, Scottdale and Charleroi. Arrangements could be made to play a
 Sunday game at Clarksburg and one
 game at Fairmont. Arrangements
 might also be made to play one game
 in Connellsville. All the Clarksburg
 players are under contract until Sep-
 tember 15, so no trouble will be en-
 countered on that score.

UNDERWOODS HEARING HAS BEEN POSTPONED

William Underwood of Marianna,
 charged with violating the mining
 laws of Pennsylvania, was to have
 been given a hearing before Alderman
 Day of Monongahela this morning but
 on account of important witnesses not
 being able to be present it was post-
 poned until a later date.

Mine Inspector Henry Loutitt is
 the prosecutor and the allegation is
 that Underwood was directly or indi-
 rectly responsible for the explosion
 which occurred at the Marianna mine
 on August 12. As a result of the ex-
 plosion one man was burned to such
 an extent that he died the next day
 and another is still critically ill and a
 third was painfully burned.
 Underwood is the mine boss at the
 Marianna mine and at the time of the
 explosion it is said the men were
 working under his orders.

CORNER STONE LAYING YESTERDAY

Continued from page one.

Rev. Frantz, the pastor, on laying
 the foundation for a structure had,
 which would when completed be
 among the finest houses of worship in
 this city and spoke feelingly of when
 he was pastor of the church and how
 the little company of thirty worship-
 ers which met for the first time seven
 years ago in the Charleroi Savings
 and Trust company hall to worship,
 has increased wonderfully until the
 membership is at present one hundred
 and fifty. He expressed himself as
 being extremely thankful to be pre-
 sent to take part in the exercises, and
 again to be among his own people.

At the conclusion of Rev. Leech's
 address, Rev. M. M. Allbeck, of Mon-
 essen made a few remarks, and was
 followed by a representative of the
 Charleroi Ministerial association, the
 president himself, Rev. G. G. Kerr.
 Announcement was made of the
 contents of the box which was to be
 placed of the cornerstone, and the
 package placed therein. It contained
 various things, among which were a
 bible, hymnal, Lutheran papers and a
 copy of the Mirror and the Mail. The
 cornerstone was then placed in po-
 sition by the contractors. Rev. Frantz,
 placed the first bit of cement. The
 ceremonies over the stone took place,
 followed by the singing of the "Dox-
 ology," and the pronouncing of the
 benediction.

A large number were present to
 witness the services.

CUTTING AFFRAY AT LUCYVILLE

In a cutting affray at Lucyville
 Saturday night, Charles Bondik was
 badly cut by James Barovia. He was
 slashed between the eyes, on the ear
 and below the ear. Barovia escaped,
 but Bondik came to Charleroi this
 morning and made complaint against
 Barovia before Justice Rice on a
 charge of assault and battery. The
 constable was sent after Barovia, and
 expects to land him today. Bondik
 and Barovia are brothers-in-law, but
 the latter evidently does not believe
 in brotherly love as Bondik can testify
 to his regret.

Brigade Will Meet.

Tomorrow night the Boy's Brigade,
 after a long idleness, will resume
 practices. The Brigade discontinued
 practice about a month ago. As the
 school season is now about to start,
 most of the members are back in
 town, and the Brigade desires as large
 an attendance as possible, as they
 wish to get all the practice they can
 before going to Monongahela to par-
 ticipate in the mammoth military
 parade on Wednesday, Sep. 9, of Mon-
 onghahela Old Home Week.

Captain Jolliffe has received a writ-
 ten invitation to place the Brigade
 in the parade, and will probably re-
 ply favorably on behalf of the boys.
 The meeting tomorrow night will be
 held at the usual place, the tennis
 courts on McKean avenue.

 later is compelled to find the offender
 following him from the jail.

 in the matter will be taken Mon-
 day or Tuesday.

There is much speculation as to
 where the international headquarters
 are to be located, in the event of
 A. L. Faulkner being re-elected
 president. His headquarters are now
 in Cleveland but if elected an effort
 will be made to have them transferred
 to Pittsburgh.

Making More Than a Living

Nearly every man who works
 steadily makes more than a liv-
 ing. During these slow times
 the men who have saved some-
 thing appreciate what it is to
 have something laid away for a
 rainy day. A few cents a day
 soon counts up, and when sav-
 ings are placed in a bank at a
 tidy interest the sum soon grows
 to proportions that make it a
 safeguard against want when
 work is not plentiful. Figure
 up how much more than a living
 you are making now, and place
 the difference in this bank.

DAMES AND DAUGHTERS.

Mrs. Laura Holtz Schneider is an alderman of Buena Vista, Colo. It is said of her that she has given the most effective carried over given by an alderman of that town.

Mrs. Kean, mother of the senior New Jersey senator, is past eighty, yet is active in society. She spends much of her time making silk quilts of pieces from gowns of friends.

Viscountess Falkland of England is an American peeress, a daughter of Robert Reade of New York, and she is a lady of grace of the Order of St. John of Jerusalem as well.

Miss Mary E. Miller, a Chicago attorney and counselor, received a fee of \$30,000 for gaining a suit for the grandchildren of William Bross for the distribution of his \$3,000,000 estate.

Mrs. E. E. Teape and her daughter, Mrs. Mackelvie, recently accomplished the feat of a 4,000 mile trip in an automobile from Portland, Me., to Portland, Ore., without the presence or assistance of men.

Dr. Kathryn Standly of Brookfield, Mo., has been appointed by Governor Folk as a delegate from Missouri to the international congress on tuberculosis, to be held in Washington Sept. 21 to Oct. 1.

Miss Grace Bryan, second daughter of William J. Bryan, is quite a scholarly girl, and it is expected that she will go to college in the fall, she having been preparing for the last two years at a Virginia school. She is said to resemble her mother very much.

Famous Noses.

The immortal G. M. surnamed Naso, had a bottle nose.

Lycurgus and Solon had noses each six inches in length.

Scipio Nasica derived his name from his very prominent nose.

Antiochus VII. was called "Grypus" because his nose was as big and hooked as a vulture's beak.

In the medals of Cyrus and Artaxerxes the tips of their noses came clear out to the rim of the coin.

Mohammed's nose was so curved that the point seemed to be endeavoring to insert itself between his lips.

Numa's nose was six inches in length, whence he obtained his surname of Pompilius, as being the owner of a superlative nose.

Great Frederick's nose was so prominent that Lavater offered to wager his reputation that, blindfolded, he could tell it out of 10,000 other noses by simply taking it between his thumb and finger.

Church and Clergy.

The Prussian government has authorized a great lottery to defray the cost of repairing the famous cathedral at Cologne.

Excavations at Hexham abbey, in England, show that St. Wilfrid's cathedral, built about 674, was a part of the present abbey.

After an absence of many years at Rome Mr. John Vaughan, a brother of the well known Father Bernard Vaughan, is to return to London in October to deliver four sermons at Westminster cathedral.

For fourteen years Rev. J. S. Thomas, an evangelist of the Baptist Home Mission society, has been traveling in a chapel car, holding meetings from Minneapolis to New Orleans, and has built thirty churches in that time.

College and School.

The oldest of Oxford's colleges, University, was founded in 1249.

The average annual cost per pupil for public school education in Germany is \$12.86.

Mrs. Mary Quimby recently closed her school in the Buzzell district, Wakefield, N. H., making forty-five consecutive years she has been engaged in the work.

Nearly all the states in the American Union established free public schools between 1840 and 1850. But the graded system of instruction was carried out only in the large cities. In a country school there were sometimes more classes than scholars.

State Lines.

A new law in Louisiana has lifted the robin out of the list of game birds.

Colorado has a marble deposit worth more to the ton than any but the very highest grade of gold ore.

In the eleven counties of southeast Missouri, containing swamp or overflowed lands, thirty-one drainage ditches or canals have been constructed, with a total length of about 660 miles. These ditches have reclaimed 255,000 acres of land.

Bible Money.

A gerah was 1 cent.

A shekel of gold was \$3.

A farthing was 3 cents.

A talent of silver was \$533.30.

A mite was less than a quarter of a cent.

A piece of silver, or a penny, was 13 cents.

A shekel of silver was about 50 cents.

THE HALL OF FAME.

Dean Russell of the University of Wisconsin has selected Mrs. Scott Durand to lead the movement for securing pure milk legislation.

George Ellery Hale, director of the solar observatory of the Carnegie institution of Washington at Mount Wilson, Cal., has been elected corresponding member of the Academy of Sciences.

J. C. Rock of Washington now claims to be the youngest civil war veteran, stating that he enlisted in Company G, Sixth Vermont volunteers, in October, 1861, when fourteen years and two months old.

Louis A. Wood and Mary Schelen jumped off the train at Waterbury, Conn., the other day, hurried to the town clerk's office, were married and took a homeward train all inside of thirty minutes, which is a record in that town.

The death of General Stephen D. Lee leaves only two surviving lieutenant generals of the Confederate army. They are General A. P. Stewart, ranking lieutenant general of the Confederacy, of Biloxi, Miss., and General Simon Bolivar Buckner of Kentucky.

Rear Admiral Caspar F. Goodrich, commandant of the Brooklyn navy yard, has been designated to attend the coming celebration of the founding of the University of Saragossa, Spain. Major General Leonard Wood will represent the army.

Ten members of the late President Cleveland's cabinet survive—Richard Olney, Don M. Dickinson, Judson Harmon, John G. Carlisle, David R. Francis, Norman J. Coleman, William F. Vilas, Hoke Smith, Charles S. Fairchild and Hilary A. Herbert.

Secretary of War Wright appointed Walter H. Pedigo of Virginia to be his private secretary, vice Fred W. Carpenter, who resigned to go with Judge Taft. C. C. Wagner of Reading, Pa., has been appointed confidential clerk to Secretary Wright.

Fly Catches.

In the matter of young pitchers who are filling the bill in clever style this season McQuillen of the Philadelphia Nationals must not be overlooked.

Ex-Manager Frank Dwyer of Geneva, N. Y., who umpires college games, declares that Cincinnati's pitcher from Michigan university, Sincok, "has the goods" and will make good in the big league.

Manager Jim McAlleer of the St. Louis Americans has picked up a very promising pitcher in South Paw Graham. He is only a youngster, and when he gets better control of the ball he will be hard to beat by any team that has several left handers on it.

Wilson of the Pittsburgh Nationals is one of the best throwing outfielders in the business.

Big Ed Walsh of the Chicago Americans has much the same style in his delivery that Jim Devlin, the old Louisville pitcher, had.

English Etchings.

Aldermen were first appointed for London in 1242.

John Milton's autograph, appended to a marriage contract dated 1623, was recently sold for \$222.

Government analyses of so called temperance drinks sold in England prove that they contain from 2 to 12.3 per cent of alcohol.

Of the forty-four English county chief constables, only three have risen from the ranks, thirty-three being ex-army officers and one an ex-navy officer.

A lunatic named Bedlington, who died at Morpeth asylum, imagined he was a gun. He placed a quantity of gunpowder in his mouth and then ignited it with a match.

Home Helps.

Headache will often yield to a foot-bath without other treatment. Try it. A little vinegar added to butter and sugar is an excellent remedy for hoarseness.

When burning vegetable refuse in store or furnace, put a handful of salt into the fire and there will be no unpleasant odor.

Every night the housewife should rub cold cream into the base of her nails. To avoid the injurious effects of sweeping and dusting she should always wear gloves.

When boiling milk, put two tablespoonfuls of water in the pan first and let it boil. Milk boiled in this way will never burn to the bottom of the saucepan.

Facts From France.

Elephants are being employed in Paris as sandwich men to advertise a music hall in the Champs Elysees.

At Lyons, France, and surroundings the greater part of the weavers have been working only three days a week since last December.

It is noted that while the French colonies are fast becoming an outlet for the overpopulation of other nations, they are constantly growing more French.

The artificial cultivation of snails is an extensive and flourishing industry in France, no less than 2,500,000 pounds of this succulent delicacy, as Frenchmen consider it, being consumed annually.

SIRIES AND SONS.

John W. Gates has contracted for the construction of the finest golf links in the world at his home at Port Arthur, Tex.

Count Sergius Witte, former president of the senate, has the reputation of being able to carve a roasted pig more skillfully than any man in the south.

Secretary of the Interior Garfield has decided to decimate the ranks of the regiment of women in the departments at Washington. At least in the department of the interior the higher class of women clerks must give way to men, it is said.

Count Sergius Witte is not only no longer at the helm of the Russian government, but stands almost alone even in the council of the empire. Nevertheless a strong feeling prevails that Count Witte's day is not done; that he will be recalled in the first emergency.

Probably the oldest man alive is Hadji Raouf, who lives in Constantinople and is said to be 132 years old. He still works at his profession of saddlemaking and has never left the house which he was born in. His father is believed to have lived to the age of 142.

When Dr. James Curtis Hepburn of Princeton last June he celebrated the seventy-sixth anniversary of his graduation from college. He received his diploma in 1832, was graduated in medicine at the University of Pennsylvania in 1836 and is Princeton's oldest alumnus. He recently passed his ninety-third birthday.

Constantin Brun, the Danish minister to the United States, will be transferred from Washington to London to be the successor of F. E. de Bille, who retires from the diplomatic service. Count Carl von Moltke, the Danish minister to Italy, whose wife was Cornelia Van Rensselaer Thayer, daughter of Nathaniel Thayer of Boston, will succeed M. Brun at Washington.

Gleanings.

Scientists believe that eating apples greatly benefits the body by increasing animal electricity.

Three Vermont newspapers are more than a century old—the Windsor Journal, founded in 1783; Rutland Herald, in 1794; Montpelier Watchman, 1806.

The custom of shaking hands can be traced to the days of the ancient Israelites and was intended to signify peace, to swear friendship, to promise alliance or to give security.

The land commissioner of the department of the interior is the biggest real estate agent in the country. He received \$11,552.173 for his cash sales in 1907 and disposed of 20,997,556 acres.

Concord, N. H., has a "white wings" street cleaning brigade just like the famous squads devised by the late Commissioner Waring for New York. The men wear white duck overalls and jumpers, which are kept clean at the expense of the city.

A postoffice will be installed on every ship in the United States navy, authorization having been made at the last session of congress. Enlisted men on each ship may be appointed as postmaster and assistant postmaster, their regular pay to be increased by \$500 and \$300 a year respectively.

Tales of Cities.

Lowell has about 8,000 Greeks in its population, and about 100 of them are registered voters.

New York city has one public park that is 250 years old, and that is Bowling Green, which was the playground of the first Dutch settlers.

London eats 3,000 tons of potatoes each day, 750,000 cabbages, 3,000,000 loaves of bread, 250,000 gallons of milk and in a season 10,000 pecks of beans and peas.

The city of Budapest, Hungary, is preparing to make a novel experiment in the way of municipal enterprise. Bids have been invited for a city bakery with a daily capacity of 55,000 pounds of bread. The most recent designs of machinery will be installed, and the baking will be done by the continuous process.

The Royal Box.

Princess Stephanie of Belgium has patented a chafing dish and put it on the market.

Emperor Francis Joseph of Austria is seventy-eight years old, but he is still an ardent hunter.

The German emperor hunts in a coat and cape of pale blue trimmed with green, red trousers, high patent leather boots with gold spurs, a green leather belt containing a gold hauled hunting knife and a green felt hat with a feather in the side.

King Edward is said to be in better health at the present time than he has been for some years. His weight is not so great as it was a short time ago, and, yielding to the urgent advice of his physician, he is taking, for him, quite a lot of walking exercise.

Train and Track.

Steel rails average 130 tons of metal to the mile, iron 145 tons.

There are 693,000 season tickets in operation issued by the railway companies of Great Britain.

The supreme court of New York has decided that the New York City Transit company may engage in the business of selling power.

The annual report of the insurance department of the Pennsylvania Railroad company shows that in a year 1,000,000 cigarettes and matches cost the company \$40,000 in taxes.

HINTS FOR FARMERS.

Weeds That Sheep Eat.
The Minnesota station gives the analyses of weeds which sheep eat readily and their protein contents compared with timothy hay. It will be a surprise to many to see how high in protein these weeds are, and it suggests the reason sheep flourish on them, worthless as they are otherwise. Here are the analyses: Lambs' quarters, 25.00 protein, 54.04 carbohydrates, 1.96 fat; purslane, 26.13 protein, 53.70 carbohydrates, 2.9 fat; pigweed, 26.54 protein, 62.86 carbohydrates, 1.36 fat; dandelion, 24.61 protein, 58.95 carbohydrates, 2.70 fat; catnip, 22.25 protein, 63.07 carbohydrates, 2.60 fat; goldenrod, 11.63 protein, 76.63 carbohydrates, 4.85 fat; mustard, 15.75 protein, 75.50 carbohydrates, 1.55 fat; quack grass, 11.27 protein, 79.12 carbohydrates, 1.96 fat; alfalfa, 20 protein, 40.64 carbohydrates, 2.46 fat; clover, 13.35 protein, 52.23 carbohydrates, 3.45 fat; timothy hay, 8.75 protein, 41.76 carbohydrates, 2.16 fat.

Sowing Crops.

A mixture of Kafir corn and cowpeas at the Pennsylvania station produced the largest yield of green substance ever here, was relished by the cows and was entirely satisfactory from the standpoint of milk production. Alfalfa produced the largest yield of air dry substance per acre, and the cows seemed to hold up better in milk production when on alfalfa than on any other crops tested. Oats and peas proved satisfactory as a sowing crop. It produced the earliest sowing crop and gave a large yield of dry substance per acre, but under average conditions it ripens too quickly to be most satisfactory. The different forage crops tested seemed to have little, if any, effect upon the composition of the milk.—American Cultivator.

Plans For New Dairy Barns.

For the past two or three years the dairy division of the department of agriculture has been making an investigation of all the principal dairy barns in the United States and a study of the best methods of construction, with reference to convenience, cheapness in feeding and hauling of stock, sanitation, etc. The result is that the division has a large number of plans suitable for building barns and stables of varying costs, so that any one contemplating building a barn can obtain, by simply corresponding with the chief of the division, a set of building plans which will probably just about meet his needs.

Horse Sense.

Turning the work teams out to pasture at night is better than keeping them shut up in a close, poorly ventilated stable.

Every farmer must have horses. Why not have the best, then, and make a nice little profit on the side from the colts?

The time to sell the colt is when a good price is offered. It's good policy to have him ready to attract the good price, though.

Begin to handle the little fellow when he is very young if you would keep him from getting wild. Be judicious about it, though, at all times.

Hog Notes.

The hog with large bones is rapidly growing in favor.

Very frequently the feeding amounts to more than the pedigree.

Drinking hogs is no longer a tedious job. The modern tank simplifies it.

An average litter of seven or eight pigs will be pretty nearly sure profit.

A good way to save high priced corn is to provide good alfalfa pasture.

The man who never has dipped his hogs is the man who objects to it most.

A good boar will do a great deal to put the hog end of your farming upon solid footing.—Knoball's Dairy Farmer.

Spinach Omelet.

Make a puree of spinach in the usual way—that is to say, after having boiled it till tender chop it very fine and rub it through a coarse wire sieve, season with salt and pepper, stir over the fire and add two ounces of butter and a little cream. Take two tablespoonfuls of the spinach and stir it into four eggs which have been previously beaten, yokes and whites separately. Add a little piece of shallot which has been rubbed through the sieve, and salt and pepper to taste. When thoroughly mixed put the whole into an omelet pan with two ounces of butter and fry a pale brown. Serve very hot.—By-stander.

The Prevailing Craze.

"My wife bit her tongue this morning."

"Mercy on us! Is she mad?"—Baltimore American.

Recognition.

"I'm sure I must have met you."

She said and looked me over.

"Oh, yes; we were engaged last year and also once before!"

—Pick-Me-Up.

Always Taking Chances.

"Spiggins is an inveterate gambler."

"Yes; I understand that; he has been married several times."—Detroit Free Press.

Pompadour.

Among college boys and young men generally this style is finding favor. Some barbers cut it awful, others cut it worse. I cut it just right. Twenty years experience. Paste this in your hat. Jim Grahams Palace Shaving Parlor, 513 McKean avenue. 55 cents.

FISTIC ENCOUNTER SATURDAY NIGHT

(Continued from first page) brother to a riot. Men in the vicinity at the time, tried to separate the fighters, while some of the bystanders, being in a condition somewhat akin to that of the contestants, urged them on. A call was sent to the police, and Chief Albright and Officers Higgins and McEldowney responded, and succeeded in rounding up three of the "scrappers," but the fourth being in a much better condition than the other three, "beat it" up the alley and escaped. Nevertheless the police have several valuable clues as to his identity and residence, and expect to land their man sometime today.

The men who were captured were Joseph Carscoski, Martin Andocwick, and Charles Dorbitz. Carscoski is a resident of Vesta and works in the mines at that place. Andocwick is also a miner, but he resides in Charleroi and works in the mines here. Dorbitz is a factory-worker here. Chief Albright and Officer Higgins took care of Carscoski and Andocwick, while Dorbitz made a tour to the calaboose personally conducted by Officer McEldowney. The former two were locked up, but Dorbitz posted a forfeit of \$10 for his appearance.

At the hearing Sunday morning Carscoski complained that as he got the worst of it he should be let off, but the Burgess ruled otherwise and all three were fined \$5 and costs, amounting to \$6.65 in all.

FURNACE HEATING

Insures a good circulation of warm air and is the cheapest way to heat your residence. If you are going to build, why not have your house piped for a furnace and save the cost of extra chimneys. Call and get estimate. We handle the best makes. Latta, Century and Waco, and have experienced men who put them up. We do all kinds of roofing and repair work. Your tin work should be painted every year or two. We can do that or sell you the paint and you can do it. Phone us your wants. Both Phones.
